Activity 5: Preceptor Assessment on Entrustable Professional Activities (EPA)

The following Entrustable Professional Activities (EPAs) represent the core competencies expected of students during the P3 Community Pharmacy placement. Preceptors are encouraged to assess the student's level of entrustment based on their overall performance throughout the placement.

Student's name:	Placement Site:	Placement Dates:

Activity	Description	EPA Level		
Primary Care Assessment and Clinical Decision-Making	Obtain an appropriate patient history, assess common uncomplicated conditions encountered in community pharmacy, identify actual or potential medication-related issues, and provide evidence-based recommendations, counselling, referral, follow-up, and clinical justification where appropriate.	1	2	3
Prescription Processing and Safe Supply of Medicines	Receive prescriptions and consumer requests professionally by obtaining relevant clinical and administrative information, performing prescription screening, supporting the safe and legal dispensing process, and ensuring appropriate documentation and communication under pharmacist supervision.	1	2	3
Patient Counselling and Medication Management	Provide patient-centred counselling on prescription medicines, over-the-counter medicines, CAMs, and medical devices. Assess patient understanding, optimise medicine use, provide follow-up advice, and identify when referral is required.	1	2	3
Health Promotion and Preventive Care	Participate in health promotion initiatives and preventive care services, including patient education, blood pressure and blood glucose screening, lifestyle modification, disease prevention, and public health campaigns conducted within the community pharmacy setting.	1	2	3
Pharmacy Practice	Demonstrate professionalism, ethical practice, effective communication, teamwork, and participation in the day-to-day operations of community pharmacy, including inventory management, medicine storage, workflow, and compliance with legal and professional standards.	1	2	3

Level 1	Observe only, even with direct supervision
Level 2	Perform with direct, proactive supervision and intervention
Level 3	Perform with reactive supervision (i.e. on request and quickly available)
